5TH PROJEKT

“One great kaleidoscopic orgy of sound.”

Neal Moogk Soulis, Imprint

13 MAY 2026 (TORONTO, ON) – Invoking ritual, 5th PROJEKT presents *Live In London*, their first live-off-the-floor release. Unfolding like mythic scenes in motion, the five-song EP traces an atmospheric arc across the band’s sonic landscape, acting as a ceremonial initiation into their immersive sound. *Live In London* will be released May 13, 2026 on the band’s own Organik Rekords.

Live In London has been released through a series of staggered singles that began in January 2026, each song a spell gradually revealing the greater framework of the collection. The set and setting is introduced through the reimagined moody, slow-burn opening of *Oblivion (Live)*, which thins the veil between dark trip-hop and gothic rock. The dreamlike drive of *Incantation (Live)* marks the moment where intention, rhythm, and repetition begin to give form to the unseen. *The Labyrinth (Live)* descends into a frenzied, psychedelic spiral of shadow work, leading to the grungy and ethereal *Shapeshifter (Live)*. Previously unreleased, this song conjures transformation, shoegazing into the feral feminine. Ending on a high note, the final offering of *The Pace (Live)* is one of integration, a kinetic krautrock-inspired adventure. *Live in London* will be released on all digital platforms as well as on vinyl.

Previous releases *The Wolf* (2023) and *The Labyrinth* (2022) received strong Canadian college radio support, with *The Wolf* climbing to the *learshot* National Top 25, alongside press coverage, award nominations, and festival showcases.

5th PROJEKT reaches into your soul and brings out your most intimate thoughts and feelings.
Nicole Mendes, The Other Side

The experience of listening to them feels like remembering what we’ve forgotten.
Punk Head (Los Angeles)

One part psychedelic, another cinematic, and another firmly planted within the grunge rock of the '90s.
Aaron Willschick, V13
